

Health, Safety, and Environmental Policy

FutureFuel Chemical Company is committed to protecting the environment, health, safety, and security of our employees, and being good stewards of our products throughout the supply chain, including the communities where we work.

Our Principles

Prevention	We strive to eliminate all accidents. Our goal is an accident-free workplace that is created by everyone eliminating unsafe behaviors and unsafe conditions.
Accountability	We believe safety is a personal, team, and line responsibility. Working safely and protecting the environment and others are expectations of everyone.
Risk Management	We assess and manage safety on every job.
Hazard Recognition	We proactively identify and address safety concerns and near hits.
Process Design	We design safety and environmental protection into our processes.
Incident Analysis	We investigate HSE incidents promptly and appropriately to eliminate root causes.
Training	We provide required and value-added HSE training to all employees on an ongoing basis.
Compliance/Improvement	We inspect and audit our HSE performance for compliance to regulations and continuous improvement.
Stakeholders	We commit to maintaining open lines of communication with both internal and external stakeholders.
Responsible Care®	We commit to manage our products and our plant by the Responsible Care® Guiding Principles.
